LOGAN, UTAH.

## Good News for Local Investors

### Whitehorse, Nevada, Group of Mines Richest on Earth says Local Papers.

Some time ago THE REPUBLICAN made reference to the fact that various local people had become interested in certain mining prospects in the Whitehorse, Nevada, district that showed fabulous ore. Recent reports are more than flattering and indicate that the Logan gentlemen interested—Moses Thatcher, Jacob West, Robert Murdoch, L. C. Farr and H. E. Hatch—may reasonably indulge in pleasant speculations. On the 20th Mr. Thatcher received a message from a Mr. Bovee, promoter and friend of the gentlemen named, which was highly satisfactory and in addition to this the "Silver State," a publication in the Whitehorse country, publishes an article that will prove interesting even to those who have no financial interest in the company mentioned. The Silver State says:

#### Wonderful Indeed.

"Most wonderful indeed is the new strike reported in the Keystone Nevada Mining company in White Horse district, Washoe county, says the Silver State, for it is now authenticated beyond the shadow of a doubt that ore is being taken out of the mine from the face of the drift, both on the upper and lower levels, which really shows more gold than rock, and the richness is so pronounced that it is absolutely beyond belief. In the upper level, which is about eighty feet below the surface, three sacks of ore weighing perhaps seventy-five to eighty pounds to the sack, were taken out last Friday morning in fifteen minutes, which will average at least \$100 in gold per sack, and on the lower level the face of the drift being 250 feet below the apex of the lode, Saturday seven sacks of ore were taken out within half an hour, each sack running perhaps seventy-five or eighty pounds, which carried the enormous value of at least \$1 a pound for each and every sack.

#### Richest Mine on Earth.

This is indeed a most remarkable showing and is only in keeping with the enormous high grade of the ore shoots heretofore encountered in that remarkable property. It will no doubt be remembered that three months since a shoot of ore was struck which carried values of \$52,000, \$60,000 and \$170,000, and the general average value of the vein, which is eight feet between walls, is \$3,000. Without doubt the Keystone Nevada property is by far the richest gold mine on earth, for we never before heard of a property which produced seven sacks of ore that would average a dollar a pound in fifteen minutes, and this

shoot is now being exploited and seems equally as rich as when first encountered.

#### Helps to Make History.

The Oro group and the Crown Point mines, which compose the vast holdings of the Keystone Nevada company, have helped to make history in the White Horse district, and for years they have been considered among the best mines there; but such values being uncovered was never dreamed of, though exceedingly good surface showings existed at all times. The reason for driving the lower tunnel mentioned above was to crosscut the vein which was disclosed in a shaft twenty feet deep in which values were secured going \$600 per ton in gold. It will thus be seen that there is a very strong probability that this fabulously rich shoot extends from within twenty feet of the surface at least to a depth of 250 feet with every indication of much greater depth.

#### Was Very Wise Purchase.

The property of this company was purchased about four months ago from Jack Sheehan, D. M. Harvey and others, at a cost of about \$35,000, and since that time three different shoots of ore have been uncovered not less than seven or eight feet wide, which average thousands upon thousands of dollars per ton. The property is located immediately upon the great mineral zone which trends through the district, and is surrounded by such mines as the Green Hill, Williams No. 2, Ingalls, or Buster group, Slip, Renegade and others, which have produced hundreds of thousands of dollars in less than twenty-five or thirty feet of the surface, almost taken from the outcrop of the lode, and the total output of the district within the depth named has been \$1,500,000.

#### Will Erect Large Mill.

And now comes the story that the Green Hill Mining company proposes at once to erect a 100 stamp-mill on the truckee river at Wadsworth and build a railroad from Wadsworth as far up the canyon as possible toward the mines and then connect with a tramway. Most certainly the prospects of the White Horse district are indeed bright, for these operations and the aggressive mining being advanced on other properties are sufficient to assure permanent results. The people of Wadsworth in five minutes \$3,000 toward paying half the cost of grading this railroad, and as it amounted to only \$2,000, it was unanimously agreed to spend the other \$1,000 in a wine supper.

## Four Hyrumites Sent to Jail

### Break Into Store and get Four Months. Other News of Southern Town.

HYRUM, Feb. 21, 1906.—Ludwig Petersen, Joseph L. Jensen and Willard Hansen were arrested Monday for having broken into Mr. James Unsworth's cafe on a previous night and helped themselves to things found at that place. Their trial was set for Tuesday 4 p. m. but at that hour it was learned that the city justice was diverted by law to sit on this case and hence Mayor Hansen appointed Mr. Rasmussen, the justice of Wellsville precinct in above mentioned case, who sentenced the defendants to four months each in the city jail. The law-abiding citizens of our city appreciate the manifest determination of our city officers to check burglarious attempts of which some young persons here show a tendency.

On the evening of the 17th inst. the Primary Association of the First ward under the direction of its president, Mrs. Clara Williams, gave an entertainment consisting of vocal and instrumental music to a fair sized audience.

The dance in the pavilion on the evening of the 19th was a very successful affair, which is not to be wondered at when it is considered that the Young Ladies' Association of the Third ward had charge of it.

Our district schools, of which Mr. C. F. Olsen is the principal, have a very large attendance of Utah's best crop in all the grades in general, and very notably so in the eighth grade class, it being the largest of its kind

in the district schools of the county.

HYRUM, Feb. 22.—Henry Danielson carries his arm in a sling. He was binding a load of hay and broke his arm in a fall from the load.

The home missionaries will complete their visits next Sunday, when all the wards will have been visited five times since last November. There are missionaries out now visiting from house to house on week days, and it is reported the attendance at Sunday meetings has greatly increased.

The Sunday Schools are all starting an up-to-date library with books treating history, travel, biography and scripture. It will no doubt be a great benefit to the young people, for they can get possession of these excellent books without cost.

Eggs have taken an awful drop; there are none broken, but the fall

#### A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters: "It's a God-send to mankind. It cured me of lame back, stiff joints, and complete physical collapse. I was so it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in fifty minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and ill stomach, liver and kidney complaints. Sold under guarantee at Riter Bros. Drug Co. Price 50c.

has broken the people's hearts who had eggs to sell.

The barbers here have formed a trust. They are having a new shop erected and will both go into it the first of the month.

The First ward primary gave an entertainment in the stake house last Saturday. There was a crowded house and the program was very much enjoyed.

James Almond has gone head over heels into the coal business. His first car arrived last week and was sold out in one day.

Five inches of snow fell Sunday night on top of several hour's rain.

## IN HONOR TO GEO. WASHINGTON

Affair at A. C. of U. at  
Wednesday's Chapel.

Students Give a Program  
and Orate a Little.

A special program of unusual interest was rendered during the chapel and drill hours at the Agricultural College last Wednesday. Prof. Bexell, chairman of the Joint Committee, announced the object of the meeting, being a response to a call made by the American Peace Society, of Boston, for college and university students to celebrate Washington's birthday by suitable discussions of the principles of International Arbitration. The program was then turned over to the student body, with F. D. Farrell as chairman. The following program was rendered:

Music.....Band  
Historical Remarks.....Dr. Thomas  
Vocal music.....College glee club  
Recitation "A call to the Anglo-Saxons".....Eunice Jacobsen  
Address on George Washington.....Aaron B. Olson  
Reading "The Christ of the Ages".....Nelle Hayball  
Music.....Band  
An attempt was made by the Joint Committee to secure the co-operation of other institutions in this city, but, for various reasons, it was found impracticable to carry out the idea.

A number of visitors were present and, altogether, the program was one of the most enjoyable during this college year.

#### Are You Restless at Night

And harassed by a bad cough? Use Ballard's Horehound Syrup. It will secure you sound sleep and effect a prompt and radical cure. Sold by Riter Bros. Drug Co.

#### Roosevelt's Speech.

On his return from his hunting trip in Colorado last spring President Roosevelt referred to that state as one which is "becoming more and more each day the playground for the entire republic." This designation of the Centennial state struck a popular chord, and the Colorado Midland Railway has used it for the title for the last Colorado booklet issued by that road. The booklet is neatly done in two colors and handsomely illustrated with pictures of familiar scenes in that state. It also includes a group picture of President Roosevelt, his friends and his guides taken while they were hunting along the railroad. The booklet is known as "Colorado—The Playground of the Republic." On the second page that portion of President Roosevelt's speech in which he referred to Colorado as the playground is quoted. The book is intended for the use of other states and visitors who travel west by way of Colorado as well as for visitors to the Centennial state and it will be given very wide distribution. Altogether it is one of the most attractive railroad booklets ever issued.

#### Strange Accident.

"A remarkable thing occurred near Peoa, this county, last Saturday evening, says the Park City Record. "Ex-bishop Walker, of that place, was driving a fine span of horses, each weighing some 1,300 pounds, and apparently in the best of condition, when without warning or the least symptoms of anything being wrong, the horses fell, and before the harness could be taken off both were stone dead. No cause can be assigned for this strange accident, as the horses had been out of the barn but a short time, had no load whatever and were to all appearances as well as ever when they fell in the road—dead. The people of that section are puzzled as to what caused the death, but as yet no satisfactory solution has been given."

## THE DENVER & RIO GRANDE AND THE RIO GRANDE WESTER
